

Press Release

27th October 2009

Coffee to takes 'un with 'ee

Leading Cornish pasty retailer West Cornwall Pasty Company is not only renowned for its traditional, hand-made Cornish pasties, it also offers high quality Fair-trade coffee and tea, made with organic milk. Always at the forefront of innovation and with an imaginative business ethos, it is no surprise that the company has introduced a new branded carrier for customers to take away multiple cups from its shops with ease, using an eye-catching 4-cup **PortaDrink**® made from sustainable unbleached paperboard sourced from managed forests.

PortaDrink® is the only multi-cup carrier on the market, which can conveniently and safely carry several drinks in **one-hand** without spilling. Supplied flat, its patented design is made in the UK and can be branded easily both sides, inside and out because it is reversible. There is also a 4-cup 'Duo' version available which splits into two 2-cup carriers making it thrifty on space and big on visual impact. **PortaDrink**® is natural, sustainable, recyclable, reusable and compostable. Distributed to West Cornwall Pasty Company by Donovan Brothers. Tel. 020 8302 6620 www.donovanbros.com
